Olha Ovsienko

Trainee FrontEnd Developer

<https://ovsiienko-olha-portfolio.netlify.app/>

Summary of Qualifications

I'm a beginner frontend developer.
I'm engaged in website development (React, JavaScript).

Skills

JS skills

- Knowledge of syntax and basic concepts such as variables, data types, operators and loops.
- Create and use functions, including arrow functions.
- DOM manipulation.
- Handle events such as clicks, data entries, and other user interactions.
- Using callbacks, promises and async/await to work with asynchronous operations.
- Knowledge of modern JavaScript features including destructuring, template strings, let/const, and modules.
- Making HTTP requests using fetch or axios to interact with external APIs.
- Using localStorage and sessionStorage to store data on the client side.
- Create and use regular expressions to find and replace text in strings.
- Working with classes. Using constructors, methods and inheritance.

React skills

- Creating functional and class components.
- Managing state with hooks and context.
- Handling side effects with useEffect.
- Using React Router for client-side routing.
- Optimizing performance with memoization and lazy loading.
- Implementing form handling and validation.
- Using state management libraries like Redux.
- Using MuiMaterials.

HTML, CSS and JS skills

- Website development.
- Writing semantic HTML.
- Styling with modern CSS including Flexbox and Grid.
- Creating responsive designs using media queries.
- Understanding the box model and positioning.
- Manipulating the DOM with vanilla JavaScript.
- Implementing interactivity and animations with CSS and JS.

Database skills

- Designing and normalizing database schemas.
- Writing complex SQL queries to retrieve and manipulate data.
- Using indexing to optimize query performance.
- Working with relational databases like PostgreSQL.
- Managing NoSQL databases like MongoDB.
- Implementing data migrations and versioning.
- Ensuring data integrity and implementing constraints.

DevOps skills

- Working with Git
- Deploying applications to cloud providers like Netlify.

Soft skills:

- Project management, time-management.
- Public speeches, business correspondence.
- Preparation of analytical reviews, reports, articles.
- Team-working.
